We discussed and come to agreement that the board of FIFOLIVZW could participate in the construction of a primary health care center, a host for boys and girls and possible on third floor a hostel for volunteers and Belgium students. The construction will have a ground floor and first, second and third floor.

On the moment the plans are discussed together to adapt the ground floor so it can be used as primary health service. The FIFOLIVZW will assist in the construction and development of the health Centre and also support the local population with health education, sanitation and hygiene, playgrounds for the children of the Hero's academy and other children who live in this area. We look forward to cooperate in near future!
